I bought my friend an elephant for his room.  
He said "Thanks"  
I said "Don't mention it"

When I greeted my boss in the morning, he told me to have a good day.  
Who am I to argue? So I thanked him and went back home.

**The Paradoxical Commandments**

by Dr. Kent M. Keith

People are illogical, unreasonable, and self-centered.

Love them anyway.

If you do good, people will accuse you of selfish ulterior motives.

Do good anyway.

If you are successful, you will win false friends and true enemies.

Succeed anyway.

The good you do today will be forgotten tomorrow.

Do good anyway.

Honesty and frankness make you vulnerable.

Be honest and frank anyway.

The biggest men and women with the biggest ideas can be shot down by the smallest men and women with the smallest minds.

Think big anyway.

People favor underdogs but follow only top dogs.

Fight for a few underdogs anyway.

What you spend years building may be destroyed overnight.

Build anyway.

People really need help but may attack you if you do help them.

Help people anyway.

Give the world the best you have and you'll get kicked in the teeth.

Give the world the best you have anyway.

The difference between Republicans and Democrats:

A woman in a hot-air balloon is lost, so she shouts to a man below, "Excuse me. I promised a friend I would meet him, but I don't know where I am."

"You're 31 degrees, 14-57 minutes north latitude and 100 degrees, 49.09 minutes west longitude," he replies.

"You must be a democrat."

"I am. How did you know?"

"Because everything you told me is technically correct, but the information is useless, and I'm still lost. Frankly, you've been no help."

"You must be a Republican."

"Yes. How did you know?"

"You've risen to where you are due to a lot of hot air, you made a promise you couldn't keep, and you expect me to solve your problem. You're in exactly the same position you were in before we met, but somehow, now it's my fault."

## Fencelines and Furrows, Blackie's History Book

To print a second edition of this history book we will need the dedication of as many people as the first edition. Many things have happened in the district since then. The population has grown. There are many more acreages. Farming practices have changed. We want to know your family history—grandparents—parents and children. We would like to have photos included also. We think we need one person per township to help organize the book.

Blackie area includes Herrronton, Brant, Mazeppa and Frankburg.

Is it just me, or does anyone else find it amazing that our government can track a cow born three years ago and right to the stall where she sleeps. Also they can track her calves to their stalls. But they are unable to locate millions of illegal aliens wandering around our country. I think the solution is to give every illegal alien a cow.

There's a fine line between a numerator and a denominator.

Only a fraction of people will find this funny.

What is the difference between Dubai and Abu Dhabi?

The people in Dubai don't like the Flintstones, but the people in Abu Dhabi Dooooo.

Q: What Dr. Seuss book do they read every morning in Canada?

A: Tim Hortons Hears a Who.

Imagine if you would hit the clock in the morning and the clock would hit you right back.

I think it would be truly alarming.
